

You don't need a trailer to haul your ATV. This 4 by 6-ft. rack plugs into a receiver hitch. Carries up to 600 lbs.

## Rear-Mount Cargo Racks For ATV's

No trailer is needed to haul a 4-wheeler with this new 4 by 6-ft. rack that plugs into any Class IV or V receiver hitch. It weighs about 185 lbs. and carries about 600 lbs. A deluxe model is available that tilts for easy loading and can be fitted with an optional support wheel on back that allows you to haul loads up to 1,000 lbs.

The company points out that compared to a trailer, the cargo platform requires no license tag, no insurance, no maintenance, no wheels, and eliminates the possibility of

Optional support wheel on back of rack allows you to haul loads up to 1,000 lbs. jackknifing.

The standard CarryAll rack sells for \$599 and the deluxe model for \$749. Other racks are available and the company says it will custom fabricate racks to any specifications.

## Back-Saving Steps For Older Deere Tractors

Older Deere tractors such as the "A", "B" and "G" were never factory-equipped with steps. An Ohio manufacturer says his new add-on steps make it much easier to get on.

"As far as I know, no one else makes add-on steps for any of these tractors," says Norman Quay, of DeGraff. "There was an after-market company that manufactured them in the 1960's but they went out of business several years ago. All the steps we offer are made out of heavy steel with durable powder coat paint."

Designed for Deere 30 and 40 series tractors, these green-colored steps are built in two pieces that are hinged together.

Wall-mounted desk looks just like the back end of a 1950's pickup. Tailgate folds down to provide a working surface.

## "Tailgate Desk" Makes A Great Conversation Piece

Did you ever fall in love with an older model pickup? Now you can bring a part of that look into your home or office thanks to a new wall-mounted desk or bar that looks just like the back end of a 1950's pickup. It comes complete with tail lights which can be wired up to really work.

Made from heavy duty, 16-gauge cold rolled sheet metal, the desk bar is designed to mount on a bracket that you bolt to the wall. With the tailgate shut, the unit extends just 17 in. out from the wall. The tailgate folds down to provide a working surface. The entire desk weighs less than 120 lbs. and can be mounted at desk or bar height.

The pickup "bed" has stainless steel strips and red oak planks that have a natural high gloss finish. A pair of "cable management" holes in the bed allow use of a desk lamp or computer screen, or other accessory. Options include stake sides and an oak shelf that goes across the top of the desk. If you want, you can have your name embossed across the back of the tailgate.

"It looks just like the real thing, right down to the hooks and chains that secure the tailgate," says Ken Laughlin. "It comes fully assembled - all you do is add the tail lights and any options. All the material we use is

UV protected so you can use the desk indoors or outdoors."

Comes in red or black, with custom colors available. Sells for \$1,500 plus S&H. Stake sides sell for \$150 and an optional oak shelf for \$75. It costs \$60 to add your name.

Contact: FARM SHOW Followup, TailEnds, Inc., 1421 West Lynnwood Ave., Arlington Heights, Ill. 60004 (ph 847 259-0858; fax 847 259-5504; Website: www.tailendsinc.com).

Yellow-colored steps are designed to mount on all Deere 2-cyl. row crop models back to 1935. They fit either the left or right side of tractor.

move the tractor's rear wheels in.

The steps sell for \$135 plus S&H.

Quay also makes battery boxes designed for Allis-Chalmers B, C, and G tractors and for International Harvester H, B, Bn, and C models. Please call for prices on the battery boxes.
