# Bolt-On Flight Replacement Kits For IH & Case IH Rotors

The Kile Rotor Flights are heavy-duty bolt-on flights which replace OEM impellers on IH and Case-IH combines. These flights mount on either specialty or standard rotors and can be installed without removing the rotor from the combine. They will dramatically improve threshing performance.

Because of the unique auger flight design, the Kile Rotor flights ensure that crop material efficiently spirals through the transition cone and reduces peak torque loads, allowing the operator to achieve higher ground speeds and extending the life of both the transition cone and the rotor belt. They also reduce gearbox loading and increase fuel efficiency.

The 80 Series kit (KRF80) includes two flights, wear plates and mounting hardware and fit 1480, 1680, 1688, 2188, and 2388 combines. The 60 Series kit (KRF60) includes three flights, wear plates and mounting hardware and fit 1440, 1460, 1660, 2166, and 2366 combines. The standard wear plates are cast alloy chrome which can be adjusted to the kidney for optimum clearance.

These flights are used in harvesting all crops with complete satisfaction. This

STX Idler

**"Kile Clear View Caps" are designed for rubber track tractors. They let you see the level & clarity of the oil in idlers and rollers.**

MT Idler

## Kile Clear View Caps For Rubber Track Tractors

Thanks to the patent-pending "Kile Clear View Caps", owners of rubber track tractors used in farming and construction can now easily see the level and clarity of the oil in their idlers and rollers. This makes it simpler to ensure that proper oil levels are maintained.

This injection-molded product is made from scratch-resistant, UV-protected polymer that withstands extreme temperatures and high impact without breakage. Kile Clear View Caps are made in the USA and come with a 5-year pro-rated warranty. Each kit comes complete with idler & roller caps, necessary hardware, and installation instructions.

Clear View Caps for Case IH STX, 9300 Series Quad Trac and Agco Challenger MT

Series are already on the market. They will soon be joined by units for Cat Challenger models 35, 45, 55, and C, D, & E, as well as the John Deere 8000 & 9000 T series tractors this fall/winter 2009/10.

Owner/operators are invited to visit Kile Mfg.'s website for information about the kits, individual caps, new products and product updates. Contact dealers for availability. Brochures and more information can be obtained upon request.
