

Koehn's Unique Livestock Products

White Lightning Fence Energizer

Koehn Marketing recently introduced a first-of-its-kind Ultra Low Impedance Fence Energizer. No other company has it.

White Lightning Energizers produce maximum power in the worst fence conditions, such as aging, wet and overgrown fences.

The White Lightning fencer has rugged weather and UV-resistant construction, an internal lightning shield, and fast fix service modules.

Koehn has a variety of fine energizers consisting of 110 plug-in and solar units.

"Whip Flag" New Way To Move Livestock

New Whip Flag is highly visible to livestock and lets you easily sort animals without handling them roughly.

The Whip Flag consists of a 12 by 13-in. fabric flag attached to either a 50 or 60-in. long, polypropylene-coated shaft. It's available in red, blue, orange, green, or gold.

Sells for \$12 plus \$5 S&H.

Drive-Thru Electric Gate

The Koehn family began their ag equipment company 40 years ago with this now-famous Drive-Thru Electric Gate.

You can simply drive through the spring-loaded gate from either direction with any vehicle without ever having to stop and open or close the gate. Uses any electric fence controller. One spring on each arm brings them back to position after you pass through.

Sells for \$149 for a 13-19-ft. adjustable gate or \$159 for an 18 to 24-ft. gate.

"Whip Flag" consists of a fabric flag attached to a flexible polypropylene-coated shaft.

Gator Jaws Remove Stubborn Filters

Gator Jaws® are the most versatile filter pliers available for removing all spin on type filters in tractors, trucks, cars, SUVs, and other heavy-duty equipment.

These patented pliers have angled gripping teeth and jaw, to grip and remove even the most difficult stuck filters. The 23-in. long handles and aggressive biting teeth provide maximum leverage, grip and torque. The special bends and angles let you get into tight spots without burning your hands and arms on hot engine components. The Gator Jaws® are large enough to grip up to 7-in. dia. filters or as small as 2.5 in.. These filter pliers can also be used to remove fuel, transmission, hydraulic, canister type filters, fuel tank sending units, and more. Designed by a US inventor, manufactured and assembled in the USA.

Grease Joint Rejuvenator

Have you ever tried to grease a joint on a piece of equipment but couldn't? No one could tell me why so I took off the blade from my 650G Dozer and examined every problem joint. Hardened grease and dirt in the bushings' relief slots were the culprits! Heat and dirt had dried up the grease and clogged up the relief slots. No amount of pressure on the grease fitting would push the new grease into the joint.

The *Grease Joint Rejuvenator* opened up

the joint in a minute! I filled the tool with light penetrating oil, burped the air out, and attached the coupler to the grease fitting. Tapping the piston of the tool with a hammer forced the light oil into the joint, allowing the relief slots to open and push out the old, dried up grease. Then the new grease went in effortlessly.
