

Poly liners are easy to install. No need to remove worn metal troughs.

Poly Case Auger Bed Liner

New Poly Last™ Auger Bed Liners make it easy and less expensive to replace worn and corroded combine auger beds, and prevent future wear and corrosion while improving grain flow.

Holes develop in the bottom of troughs due to wear or corrosion. Grain drops through the holes down to the ground under the combine. Replacement troughs cost \$1,200 or more and are extremely difficult to remove and reinstall. Poly liners make the job much easier.

Case 1020 Poly Feed Plate

The Poly Last™ Feed Plate for Case 1020 heads replaces the OEM steel plate and is more than 50 percent lighter. Poly reduces bunching and clogging, improving crop flow in all conditions. Installation is easy and uses the factory clips. Center sections are reinforced with stainless angle for greater rigidity. The front clip is molded in 18-in. segments for greater flexibility.

Poly Feed Plate is reinforced with stainless steel at the center.

Poly Last™ Auger Floor Liner For Deere, Case IH Corn Heads

Is the metal floor worn under the auger of your corn head? Don't waste time and money welding and doing a patch job that could cause feeding problems. You will improve crop flow in all conditions when you install the new Poly Last™ Auger Floor Liner. A poly liner is a fraction of the cost of replacing steel and is perfect for worn, damaged and custom heads. The liner can be placed over holes as large as 3 in. by 18 in. and gaps up to 6" wide. Precision machined and drilled for a perfect fit from 1/4-in. UV protected UHMW for added abrasion resistance and less stress cracking caused from the rays of the sun. The liner installs quickly and easily. Fits John Deere corn heads, and is available for Case IH 800/900/1000 series heads. The Auger Floor liners are also available for Case 1020, Deere 200/900, and New Holland 972/973 grain heads.

For more information and pricing visit the website www.polyskid.com or contact 800-542-7659.

Trough liner kit does not require removal of auger for installation. It's available for Deere, Case IH, and New Holland corn heads.

Protect Your Grain Tank From Corrosion And Wear

The Poly Last™ Auger Liner for grain tanks covers the existing auger floor, no matter what condition it is in and provides a slippery surface to keep grain feeding into the unloading auger faster. Poly Last™ does not rust or corrode. No bolts go through the poly. The curved design of the poly fits tightly against the grain tank floor and allows the poly to expand and contract without buckling. Available for Deere, Case and New Holland. A Universal Kit is also available for most other applications.

For information and pricing visit the website www.polyskid.com or contact 800-542-7659. **Reader Inquiry No. 186**

Liner covers existing auger floor no matter what condition it is in. Provides a slippery surface that keeps grain moving with minimal damage.
