

The Auger Tube Liner installs in about an hour, restoring worn auger housings to "like new" condition. All fasteners are stainless steel for long life.

Tube Liners Restore Worn Or Misshaped Tubes

The newly redesigned custom Poly Last™ Auger Tube Liner restores worn housing to "like new" condition. It comes pre-assembled for quick and easy installation and can be installed without removing the auger in most applications. The liner is made of stainless steel hardware for extended service life and self-adjusts to accommodate worn or new housings. It's available in lengths of 18

in. to 60 in. in 2-in. increments. Available diameters are custom-fit from 8 in. to 16 in. Great for any auger, including combine grain tank filler tubes. Poly Tech's Auger Tube Liner is patent pending.

Poly Last™ Auger Floor Liner For Deere, Case IH Corn Heads

Is the metal floor worn under the auger of your corn head? Don't waste time and money welding and doing a patch job that could cause feeding problems. You will improve crop flow in all conditions when you install the new Poly Last™ Auger Floor Liner. A poly liner is a fraction of the cost of replacing steel and is perfect for worn, damaged and custom heads. The liner can be placed over holes as large as 3 in. by 18 in. and gaps up to 6" wide. Precision machined and drilled for a perfect fit from 1/4-in. UV protected UHMW for added abrasion resistance and less stress cracking caused from the rays of the sun. The liner installs quickly and easily. Fits John Deere corn heads, and is available for Case IH 800/900/1000 series heads. The Auger Floor liners are also available for Case 1020, Deere 200/900, and New Holland 972/973 grain heads.

For more information and pricing visit the website www.polyskid.com or contact 800-542-7659.

Trough liner kit does not require removal of auger for installation. It's available for Deere, Case IH, and New Holland corn heads.

Protect Your Grain Tank From Corrosion And Wear

The Poly Last™ Auger Liner for grain tanks covers the existing auger floor, no matter what condition it is in and provides a slippery surface to keep grain feeding into the unloading auger faster. Poly Last™ does not rust or corrode. No bolts go through the poly. The curved design of the poly fits tightly against the grain tank floor and allows the poly to expand and contract without buckling. Available for Deere, Case and New Holland. A Universal Kit is also available for most other applications.

For information and pricing visit the website www.polyskid.com or contact 800-542-7659.
