

Discount Egg Cartons & Poultry Supplies

At EggCartons.com you can buy a wide variety of egg cartons as well as a complete line of poultry supplies including incubators, waterers, feeders, egg baskets and more!

EggCartons.com is making the old new again! A few years ago they brought to the public a vintage style egg scale. This popular style egg scale from yester-year has been a big hit among poultry hobbyists and collectors. Now, they have done it again! EggCartons.com is bringing back the old fashioned paper 3 x 4 egg carton with vintage printing reminiscent of the 40's & 50's. This unique egg carton will make your eggs stand out & be fondly remembered at the market!

EggCartons.com offers a complete line of cartons along with everything you need to set up your own egg business.

Contact: FARM SHOW Followup, EggCartons.com, 9 Main Street-Suite 1F, Manchaug, MA 01526 (ph. 888-852-5340) or Email@EggCartons.com).

If you've thought about raising poultry or setting up an egg business, EggCartons.com is the place to go for all your egg carton and poultry supply needs.

Do Friends & Neighbors Borrow Your FARM SHOW?

You probably don't mind sharing your copies of FARM SHOW with friends, neighbors, relatives or co-workers, but wouldn't it be nice if they all had their own subscriptions? Now you can "gift" a year of FARM SHOW to anyone and renew your own subscription at a cut-rate price. See enclosed order form or call 800 834-9665 to order.

B&D Rollers says, "We can take your existing rubber or steel rollers and recondition them to create rubber-coated, state-of-the-art rollers, called: THE CRUSHER®"

Reconditioned Hay Rollers Boost Feed Quality, Cut Drying Time In Half

"Our rollers are 100 percent rubber contact rollers that go together like two rubber roller gears. They are balanced and trued to 1,000+ rpm's and they have no vibration, which saves on bearings and machine wear and tear.

"This saves farmers time and money! Using the machine's same tension system in the machine, the unique roller design can be used on any style machine," says Dan Ostrander, owner of B&D Rollers, Glenwood, Minnesota.

Hay producers are finding that THE CRUSHER® cuts drying time by 50 percent and have saved as much as \$15,000 or more in a season. How can this be?

"The unique roller design allows producers to cut and chop forage the same day, cut and bale the next, and in most cases, get the crop down to 18 percent moisture for next-day bailing. The stem is completely compressed, leaving the leaves on for greater nutritional value as well as adding more tonnage per bale. All of this adds up to saving time and adding money to the bottom line," says Ostrander.

The quicker dry-down time has been proven in side-by-side comparison tests with CNH, New Holland, Kuhn, Hesston and Deere Hay Conditioners. "Our rollers won't plug, so you don't have to get off of the machine and waste time. The rollers are self-cleaning and gopher mounds do not pose a problem. The thick rubber design provides a cushion for rock and other debris to easily pass through without damage to the steel core. Further, the juices of the product are not permitted to seep into the layer between the rubber and steel core, thus

The amount of moisture in the crop does not affect operation of the rubber-coated rollers, says the company.

avoiding bond failure."

B&D Rollers has been in the business of coating industrial steel rollers with rubber and urethane products for more than 23 years. "With our knowledge and experience, it is our mission to provide the farming industry with the highest quality rubber conditioning roller and other products for the ag industry. Including Bale Rollers, Track Bogie Wheels and Stock Chopper balancing."

There are currently hundreds of machines throughout North America using THE CRUSHER®. Some of the rollers have already seen five seasons, and farmers have run thousands of acres through THE CRUSHER® with little to no wear. Rollers are fully guaranteed for 1 year. Dealers, Distributors, salesmen, and Mfg. Reps. inquiries welcome!
