\$2.00

New "Power Sweep" has two rows of shanks. The front row raises and lowers hydraulically as needed. Rear row is fitted with Handy's hydraulic rod weeder.

## DOES BOTH PRIMARY TILLAGE AND SEEDBED PREPARATION

By Mark Newhall, Editor

## New 3-In-1 Chisel Plow Has "Powered" Shanks

Unlike other big tillage tools that fold vertically, the wings on Handy's new "Power Sweep" fold backward for transport.

Farmers who stopped by Barry Handy's exhibit at the recent Montana Agri-Trade Exposition in Billings got a look at a first-of-its-kind, 88-ft. wide chisel plow that does the job of three separate pieces of tillage equipment and folds down to a narrow 12 ft., 6 in. width for transport. The innovative new "Power Sweep" does the work of a chisel plow, blade plow and rod weeder. It has two rows of chisel plow shanks, one of which can be pulled out of the ground when not needed. To do heavy primary tillage, both rows of shanks stay in the ground. To use the machine for lighter field cultivator or rod weeder work, you simply raise the front row of shanks.

"It lets the farmer decide how much tillage is needed depending on conditions - soil moisture, amount of residue, weather, etc. This is the first machine that gives you a choice of

*(Continued on next page)*

## IN THIS ISSUE: Ag World

- 2 New "Rake Trolley" for wheel rakes
- 3 No pit needed for "pop up" cattle guard
- 4 Turn your drill into a row-crop planter
- 4 He "plants" earthworms with his crops
- 15 Wireless road safety lights for machinery
- 21 First-of-its-kind fold-up grain head
- 22 "Walking" freestalls for dairy cows
- 23 Fast new way to weigh hogs
- 24 Wood-burning dryer for round bales
- 26 New attachments for planters, drills
- 32 Owners' report on foreign tractors
- 36 Build yourself a straw bale barn
- 23 New top-load big round baler for making "no wilt" silage
