

“Slippery Plastic”

Pictured below are just a few of the items that Osseo Plastics & Supply manufactures using Hi-Density polyethelene.

“We also distribute Hi-Density polyethylene in various size sheets and

PVC Strip Doors

rolls. Sheet sizes range in width from 24 to 72 in., and up to 10 ft. long. Rolls (100 ft. long) are available in 24, 30, 36, 48, 60, 72, 96, and 120-in. widths.

“We also offer extra-tough UHMW polyethelene, in various widths and

lengths, for lining extra high-wear areas. Some of the items we line are mangers, manure spreaders, barn cleaner chutes,

- Custom made for any size
- Last longer than steel
- Less friction
- No freezing
- No rusting
- Expert installation

feed conveyers, silo chutes, feeder wagons, TMR mixers, chopper hoods, silo unloaders, Haybine shoes, feed carts, truck boxes and feed bunks.”

Customers can order chains from the website, from a catalog, or over the phone.

“Krazy Ken The Farmer’s Friend”

Hard-To-Find Chains Found Here

Finding chain for chain-driven farm machinery is getting tougher and tougher as old companies go out of business and new machinery switches to belts or hydraulic drives.

That’s why business is booming at Farmchains.com. Owner Ken Novak, self-styled “Krazy Ken, the Farmer’s Friend,” says customers can order chains from his website, from the catalog or over the phone.

Novak carries gathering chains, precision roller chains, T-Bar and T-Rod chains, agricultural roller chains, and more. He also carries rare chains like steel detachable.

“I have guys calling up looking for chain for 40 to 50-year-old machines,” he says. “It was the first real ‘ag’ chain. I deal direct with the only manufacturer of steel detachable chain left in the world.”

Farmchains stocks and offers best prices on New Holland round baler upper and floor chains. We supply all brands manure spreader aprons, elevator, conveyor and cross conveyor chains, forage wagon and bunk feeder chains.

Contact: Ken Novak, Farmchains.com, P.O. Box 77, Dixon, Ill. 61021 (ph 800 648-5429; fax 815 288-6790; info@farmchains.com; www.farmchains.com).

“Peel And Stick” Engine Preheater

The ‘peel & stick’ Universal Preheater attaches to the bottom or the side of the oil pan and converts the housing into a heat transfer element. It warms the oil without burning it making cold starts easy. It can be used on gearboxes, transmissions, transfer cases,

water tanks and even bulk oil tanks. The Preheater plugs into any 120 or 240 volt outlet and consists of a thin silicone fiberglass pad containing a metal grid. To install it, you clean an area on the bottom or side of the oil pan and press the pad onto it, then use silicone to seal the edges of the pad and place a flexible ceramic insulation pad over it. It is available in several models depending on the lube capacity. A 50 watt unit sells for \$44 and a 350 watt unit sells for \$133.

NEW: Stop Fuel Gelling At The Filter
The Universal Filter Preheater is designed for diesel fuel filter housings. It wraps around the filter housing and reduces or eliminates the possibility of cold weather fuel gelling stopping the engine. It is easily removable and transferable and is wired for your choice of: direct current or alternating current or a convertible model combining dc and ac. A standard 12-volt Universal Fuel Filter Preheater is priced at \$138.

Newest: Bulk Tank Filter Preheater for dispensing fuel tanks and refueling pumps.
