### Make-Ahead Scrambled Egg Kits

- 1/4 cup frozen diced potatoes
- 2 tablespoons frozen bell pepper and onion blend, chopped
- 2 tablespoons chopped ham, cooked sausage, or cooked, crumbled bacon
- 2 tablespoons shredded cheese

Place all ingredients into a zip-top plastic bag and freeze until ready for use. Measurements don't have to be exact. When ready to serve, place the contents of a bag into a microwave-safe coffee cup that has been sprayed with cooking spray. Heat on high for one minute. Remove from microwave and stir. Add two eggs and stir well. Heat in microwave in 20 to 30 second increments, stirring each time, until fully cooked, about 2 minutes total time. Season with salt and pepper to taste. Use caution as the eggs and cup will be hot.

ThinOptics readers are thin and fit on the back of your cell phone.

## Phone Case Keeps Readers Handy

It's easy to misplace reading glasses but most people always have their cell phones nearby. That's why ThinOptics® figured out a way to keep the two together. The glasses conveniently fit in a thin case that attaches to the back of the phone.

The company's glasses use Flex-Fit Technology that puts gentle pressure on the sides of the nose, so there's no need for bows to go over the ears. The carrying case simple sticks to the back of the phone.

So, whether you're at home or working out in the barn, the readers are handy to use whenever you need them.

ThinOptics are made in Sonoma, Calif., and have a 30-day refund policy. Several styles are available. Prices start around \$16 and vary according to style. Contact: [www.thinoptics.com](http://www.thinoptics.com).

FurZapper goes in washer and dryer to collect fur, hair and dust.

## FurZapper Gets Pet Hair Off Clothes

Love your pets, but not the hair they rub on your clothes? The patent-pending FurZapper™ offers a simple, sounds-too-good-to-be-true laundry solution. Toss the tacky, flexible disc in your washer with plenty of water. Then, put the FurZapper and washed clothes in your dryer. It's gummy so fur, hair, dust and debris cling to it.

When the FurZapper disc loses its stickiness, simply rinse it off with dish soap and water. Properly cleaned, the FurZapper can be used for thousands of laundry loads.

For items like couches and beds, FurZapper also sells a Pet Grooming glove that is double-sided with 2,000 soft bristles. The waterproof, allergy-free, hypo-allergenic silicone glove also works for bathing or massaging pets.

It's suggested that one FurZapper should be used for each pet. You can use more than one for heavy-shedding pets. Two-packs cost about \$15, and bundle options with gloves and lint sheets are available through the website, online and other sellers.
