

Reader Recipes

Ranger Cookies

1 cup brown sugar
1 cup sugar
1 cup lard
2 eggs
1 tablespoon vanilla
1/2 teaspoon salt
1/2 teaspoon baking soda
1 teaspoon baking powder
2 cups flour
2 cups Rice Krispies
2 cups rolled oats

Preheat oven to 400 F. Cream brown sugar, sugar and lard. Beat eggs and add to mixture. Add vanilla and mix thoroughly. Sift dry ingredients and mix. Stir in cereal. Drop tablespoons of batter onto an ungreased cookie sheet. Bake for 10 mins.

Hobo Bread

1 cup raisins
2 teaspoons baking soda
1 cup boiling water
2 tablespoons vegetable oil
1 cup brown sugar
1/2 teaspoon salt

Preheat oven to 350 F. Mix raisins, soda and boiling water. Cover and let stand overnight, or until cooled. When cool, add dry ingredients and oil. Mix well. Pour into small loaf pan. Bake for 1 hour.

Red Beet Chocolate Cake

1 1/2 cups sugar
3 eggs
1 cup oil
1 1/2 cups cooked, pureed beets
2 (1oz) squares unsweetened chocolate, melted
1 tsp vanilla
1 3/4 cups flour
1/2 tsp salt
1/2 tsp baking soda

Preheat oven to 350 F. Mix flour, baking soda and salt and set aside. Combine sugar, eggs and oil in mixing bowl. Mix for 2 minutes, with an electric mixer at medium speed. Mix in beets, chocolate and vanilla. Add dry ingredients. Pour into 9 in. by 13 in. cake pan. Bake for 25 minutes. Cool in pan and let stand overnight. Add powdered sugar or frosting as desired.

Crafted from stainless steel or powder-coated metal (white or black), the StoveShelf is built to withstand daily kitchen use.

Stove Shelf Saves Kitchen Space

The StoveShelf helps declutter the kitchen workspace and maximize storage by utilizing the typically unused space above the stove.

The StoveShelf requires no tools or complicated installation. It's as simple as removing it from the box and placing it on top of the stove's back. Strong magnets hold it in place.

Crafted from stainless steel or powder-coated metal (white or black), the StoveShelf is built to withstand daily kitchen use. It can be wiped clean or removed and hand-washed. It's also heat-resistant and can withstand the heat from the stovetop or oven. It comes in 20, 24 and 30-in. sizes.

While the StoveShelf is designed to fit both flat and slightly curved stoves, buyers should check the compatibility chart on the website. Some stoves may require the included adhesive strips, and a few designs are incompatible.

The majority of reviewers give the StoveShelf 5/5 stars. Reviewer Tara says, "This stove shelf is excellent! It has plenty of room to store things. The magnetic feature works great. It's really nice that there's a lip on the back to keep things from falling behind the stove if you don't have it pushed all the way up to the wall. I highly recommend this shelf."

The StoveShelf is assembled and packaged in Wisconsin. It sells for \$39.99 plus S&H.

Hozeez grabs under the tire tread and prevents hoses and cords from getting stuck under tires.

Prevent Hoses From Getting Stuck Under Tires

Hozeez works on all common tire sizes, from low-profile sports cars to large SUVs. It allows you to work around your vehicle without hoses or cords getting stuck under the tires.

It's made from durable, high-visibility plastic. One pair is usually all that's needed when washing a car. Depending on how the vehicle is parked and the direction the hose faces, put both on one side, the two front tires, or the two rear tires.

It's injection molded in a slippery, high-density polymer so that you can drive over it, and it'll still be usable.

Hozeez grabs under the tire tread and sidewall, so the hose pulls it tighter under the tire instead of dislodging it.

Company founder Bob Bishop has 30 years of experience in product development, production and corporate management. Bob is an MIT engineering graduate with an MBA and an award-winning expert in Lean Manufacturing and Continuous Improvement.

Made in the USA, a two-pack sells for \$25 online, plus shipping. The company offers a replacement warranty.

New Products For The Farm, Ranch Home

Ice cream maker is handy for making small batches quickly.

Single-Serve Ice Cream Maker

Make delicious single servings of ice cream, gelato, sorbet and frozen yogurt with the Dash My Mug Ice Cream Maker.

Its 1/2-pint capacity is great for personalizing recipes by mixing your favorite add-ins.

It has one-touch power. Simply freeze the base, add your ingredients, and mix. No pre-made ice cream mix is required. There's a built-in ingredient chute to add toppings as the ice cream churns. Users recommend freezing the ice cream bowl for 24 hours before use for best results. You'll have a frozen treat in about 20 min.

Once ready, you can eat it right from the mug and place the mug straight in the freezer to save leftovers for later. Some users did mention that there's no lid for freezer storage.

The motor and cover detach for easy clean up. Hand wash only. All accessories store neatly inside the mug.

A recipe guide and instruction manual are included. However, users noted that the guide was lacking for some regular ice cream recipes.

"I love this mini ice cream maker. It's easy to use, and my first homemade ice cream creation was better than I expected," says Mary R. on the company website. Online reviews vary but average 4.4 out of 5 stars.

The product, which has a one-year limited warranty, sells for around \$20 on the company website and is also available at retailers such as Target and Walmart.
